THE COMPANY

Dear Sir / Madam,

Warmest regards and greetings from R. Karunanidhe, Managing Director of R Karunanidhe Constructions Pvt. Ltd., and a Civil Engineer with about 30 years of field experience.

With thirst to take up challenging opportunities, I have promoted this Company in 1996, with a vision to have Regular Clients & Repeating Orders.

With the strong back bone of efficient and enthusiastic Team Members comprising of Technical & Non-Technical Staff Members and dedicated labor force, we have served a large number of Clients in Tamil Nadu and neighboring States during these years.

Our strength lies in infrastructure which is entirely owned by us and perfectly maintained. Our infrastructure comprises fully automatic batching plants, concrete pumps, machineries, steel form work & scaffolding materials and fleet of vehicles. We take pride of being one of the reputed Contractors, better known for our no compromising policy on quality and finishing and completing the Projects on time. I am glad to present our profile with little more details in the following pages.

Sincerely,

R. Karunanidhe,
Managing Director,
R Karunanidhe Constructions Pvt. Ltd.,
Coimbatore.

QUALITY ASSURANCE POLICY

The following tools will be maintained at site to ensure quality of materials and works:

- o Jar test will be conducted to find sand bulkage and slit content.
- o The Slump cone test will be conducted to ensure consistency and workability.
- o MS boxes for measuring ingredients of concrete works.
- o MS cubes will be maintained at site to take test specimens of concrete works.
- o Line and level will be maintained by suitable means.
- o Pour Clearance will be obtained from Client's Engineer for roof concrete works.
- o Mechanical compactor will be used in basement filling.
- o Site installed mixer machine will be used for all concrete works.
- o Needle vibrators will be used for proper compaction of RCC works.
- o Good quality formwork along with adequate supports will be used.
- o Readymade cover blocks of suitable thickness will be used in RCC works.
- o Adequate curing will be carried out with mechanical pumps and hose.
- o Periodic cube tests will be conducted and recorded.
- o Plumbing and water supply lines will be tested for leakage before concealing.
- o Painting works will be carried to give uniform finish after surface preparation.

INFORMATION TO THE WORKERS

The workers and their safety representative shall be informed of all measures that shall be taken with regard to their safety on construction sites. This information shall be understandable by the workers.

Before the start of construction work, the safety representative, and senior safety representative if one has been appointed, shall be informed of the plan for safety, health and working environment.

SAFETY AND ENVIRONMENTAL POLICY

When executing a project, special attention shall be paid to the following considerations:

- a) Ensuring good order and fully satisfactory conditions of cleanliness at the construction site,
- b) Placement of work stations with regard to access and roads or areas for passage or movement,
- c) Conditions under which various materials are handled,
- d) Maintenance, pre-commissioning checks, and checks on installations and equipment with a view to correction of faults that may affect the workers' safety, health and working environment,
- e) Demarcation and laying out of areas for storage and conservation of various materials, particularly hazardous materials or substances,
- f) Conditions regarding removal of hazardous materials used,
- g) Storage and disposal or removal of waste and scrap,
- h) Adaptation, on the basis of progress made, of the actual period to be allocated for the various types of work or stages of work,
 - i) Cooperation between employers and employed persons, and
 - j) Coordination of the project with other activities on or in the vicinity of the construction site,
- k) Proper usage of safety equipments and tools, maintaining safety sign boards at work sites. The obligations of employers and employed persons

In order to preserve safety, health and working environment on the construction site, employers and self-employed persons shall:

- a) Take necessary measures to comply with all relevant statutes and regulations
- b) Take into account directions from the coordinator(s) for safety, health and working environment matters.
